Discussion

3:28 Commissioner Stooksbury arrived

Public Comments: Bill Kennedy: The process to draw companies and people to the area is a slow one. You need a sustainable approach to assist with funding versus a one-time money approach. A taxing authority could be enabled by forming a district and taking a very large swath of land in order to keep the mill levy low.

8. Airport

- Special District Creation

Governance

Public Comments: Steve Wolf: Currently, the Airport is owned by two Cities who already have taxing authority. Admit it or not the money being spent to support the Airport and its loss are coming from the mill levy I am paying as a citizen. Maybe the creative solution would be to carve out a portion of the existing mill levies to be specific for the Airport instead of taking it out of the general fund and then you don't need to worry about becoming an authority that can tax because you already can tax.

**7. Business From
Members**

This is an opportunity for Commissioners to report on recent activities or introduce new business for discussion at this time or on a future Commission agenda.

Gutierrez: Privatization of ATC may have a significant impact to our Airport and other airports similar to ours. There are time sensitive items related to it that needs legislative review.

Troxell: Hosted RTCA rule making group last month.

Adjournment: The meeting was adjourned at 5:11 p.m.

Respectfully Submitted,

Vice-Chair, Tom Fleming
