

**Avelo Airlines Announces New Nonstop Service
Between Fort Collins-Loveland and Los Angeles**

One-way fares start at \$49

FORT COLLINS and LOVELAND, Colo., July 29, 2021 — [Avelo Airlines](https://www.aveloair.com), inspiring travel through everyday low fares, is expanding into Northern Colorado with the only nonstop service connecting Fort Collins-Loveland to Los Angeles.

Starting October 6, Avelo will connect Northern Colorado Regional Airport (FNL) and LA's most convenient and popular airport — Hollywood Burbank Airport (BUR) — two times per week. One-way fares starting at \$49* can be booked at [aveloair.com](https://www.aveloair.com).

"We are excited to bring Northern Colorado more choice and greater convenience in air travel, as well as the Avelo Soul of Service," said Avelo Chairman and CEO Andrew Levy. "With this exclusive nonstop service to Los Angeles, Fort Collins and Loveland now have direct access to the best of Southern California through the region's most convenient airport. LA has never been easier or more affordable to reach."

Situated in the heart of Southern California, BUR is surrounded by LA's world-famous beaches, dining, entertainment, shopping and sun-soaked outdoor recreation. Whether Customers are departing or arriving, BUR offers a refreshingly convenient and hassle-free experience. Named the 2019 "Best U.S. Airport" by Fodor's Travel, BUR features include seamless curbside pickup and drop-off, smaller crowds, unrivaled speed for plane-to-carousel bag delivery, faster TSA security lines, and short walking distances between the terminal and ground transportation, parking and rental cars (instead of the time-consuming shuttles and trains necessary at larger airports). All of this makes BUR the ultra-convenient, stress-free gateway to LA.

"Los Angeles has started its comeback, and we are inviting visitors to safely and responsibly start their comeback to LA," said Los Angeles Tourism & Convention Board Chief Marketing Officer Don Skeoch. "Avelo's new service coincides with our national advertising campaign, and we hope visitors from our important feeder markets – newly serviced by Avelo – will find it even easier to experience all LA has to offer."

The route will be served by 189-seat Boeing 737-800 aircraft, one of the most fuel-efficient commercial aircraft in the world, providing Customers with a large, comfortable cabin with more room, more seats and more seating options than the regional aircraft typically

servicing the airports in Avelo's network. Avelo aircraft feature 60 seats with up to 9 inches of extra legroom starting at \$11.

"We know travelers are looking for affordable, convenient travel options and Avelo has shown a commitment to partner with smaller, more convenient airports like ours to make that happen. We are committed to bringing affordable and innovative commercial flights through our region, especially those in high demand markets like the Greater Los Angeles area," said FNL Director Jason Licon.

City Pair	Flight	Departs	Arrives	Frequency
FNL-BUR	XP132	11:15 a.m.	12:40 p.m.	Wednesdays, Saturdays
BUR-FNL	XP131	7:10 a.m.	10:35 a.m.	Wednesdays, Saturdays

Flight times based on local times.

About Avelo Airlines

Avelo Airlines was founded with a simple purpose — to Inspire Travel. The airline offers Customers time- and money-saving convenience, surprisingly low everyday fares, and a refreshingly smooth and caring experience through its Avelo Soul of Service culture. Operating a fleet of Boeing Next Generation 737 aircraft, Avelo serves 12 destinations across the Western U.S., including its base at Los Angeles' Hollywood Burbank Airport (BUR). Later this year, Avelo will begin service to and from its first East Coast base — New Haven Airport (HVN) — serving the Southern Connecticut region. For more information visit aveloair.com.

About Northern Colorado Regional Airport (FNL)

The Northern Colorado Regional Airport (FNL) is known for its commitment to innovation and serves as the premier destination for aviation centered business, research, development, education and training. Northern Colorado Regional Airport is one of the few commercial service airports in the state of Colorado that is also home to the innovative Remote Air Traffic Control Tower project. As part of our innovation we're working on a new airline terminal experience arriving in 2024. Book flights using FNL and find directions to the airport at Fly-FNL.com. The airport is conveniently located adjacent to I-25 and US Hwy 34 at 4825 Earhart Road, Loveland, CO 80538.
